IDENTIFIED SCHOOL NEEDS

This section highlights the critical student learning needs that require immediate attention for improvement, student subgroup(s) achievement gaps, and root/contributing cause for those needs and gaps, as identified in one or more of the following:

WASC Growth Areas of Continuous School Improvement

Growth Area #1

- The administration, school leadership, and teachers continue to focus on the achievement gap for all students, that they identified throughout their self-studies.
- They will develop and implement school-created benchmark rubrics and a formal system of continuously reviewing student achievement data to drive instruction, which will have a direct effect on all student academic success.

Growth Area #2

- The administration, school leadership, and teachers identify and implement a specific academic strategy to address each of the core academic areas, English Language Arts with an emphasis on Writing, Mathematics, Science, and Social Science (Studies).
- Once the appropriate strategy is selected, the administration works with teachers to develop a formal process for vertical articulation, curricular collaboration, and ongoing review and evaluation that measures the implementation and effectiveness of each strategy.

Growth Area #3

- The administration, school leadership, counseling staff, teachers, and parents review and evaluate the school's current Social Emotional Learning Program to determine its effectiveness for this school's student population.
- The school during this process should review and update the School's Vision, Mission Statement and GLOs, which will assist all students in reaching their full potential.

Growth Area #4

- The administration, school leadership, counseling staff, teachers, and parents formally review all data associated with student attendance to develop a true picture of all elements that are interfering with every student's ability to attend school on a regular basis.
- From this review the school implements a school attendance review committee that is composed of school staff, students, community partners, and parents, which can help the school develop and implement interventions that are embraced by school staff, parents, and community stakeholders.

Growth Area #5

- The administration, school leadership, counseling staff, teachers, and parents review communication efforts between the school and parents to analyze the effectiveness of communication with all high-risk subgroups (EL ethnic groups, low SES, IDEA), to improve the inclusivity for all students at Lanakila Elementary School.

Please identify critical student learning needs and the root/contributing cause why these needs have been prioritized.

"What should we prioritize to support our students and help us become the school we aspire to be? Why is this happening? What do we know?"

Please number the student need and root/contributing cause for ease of cross-referencing.

APPENDIX A: SCHOOL BELL SCHEDULE

Pursuant to [Hawaii Revised Statutes Section \(HRS\) 302A-251](#), as well as the current Hawaii State Teachers Association collective bargaining agreement, all Hawaii public schools must establish school schedules (including teacher work year, teacher schedule, and bell schedules) that meet student instructional hours and school year requirements. **However, in certain circumstances, a preferred bell schedule may not comply with existing regulations and will therefore require a School Community Council (SCC) waiver, effective for up to one school year.**

This section showcases Lanakila Elementary current bell schedule(s) and total student instructional hours per year. To ensure the appropriate number of instructional hours and school year requirements are being fulfilled, schools are encouraged to utilize the provided [bell schedule tool](#).

Total student instructional hours per year *(Per HRS 302A-251, all public schools, excluding multi-track public schools, shall implement a school year that includes 1,080 student instructional hours)*

1,800
