

Positive Prevention PLUS for Special Populations

Positive Prevention PLUS for Special Populations is designed for students in grades 7-12 with significant cognitive disabilities. This curriculum integrates evidence-based instructional practices and is aligned with National Health Education Standards.

Each lesson features simplified content, worksheets, and visuals. The lessons also offer easy-to-follow semi-scripted lessons, teacher support materials, and suggested adaptations and materials for supporting students with significant cognitive disabilities.

Positive Prevention PLUS for special education addresses risk factors and behaviors by increasing adolescents' ability to use risk-reduction skills, resistance and negotiation skills, and accessing health services.

The general description of the curriculum was adapted from information provided on the publisher's website.

Opt-Out Process

A student shall be excused from sexual violence prevention instruction only upon the prior written request of the student's parent or legal guardian. A student may not be subject to disciplinary action, academic penalty, or other sanctions if the student's parent or legal guardian makes such written request.
